Projects

SQL Query Automation Tool

Enterprise Node.js application that automates database operations and report generation. Executes predefined SQL queries, exports results to Excel format with automated email distribution via Outlook integration. Features scheduling functionality for regular report delivery to stakeholders.

Tech used : Node JS, Node mailer, SQL Server.

Secret Santa Generator

Full stack application for Secret Santa game, automating participant email notifications.

Tech used : [ASP.NET](#) Core, Angular.

Tech kart Application

Microservices-based e-commerce platform featuring JWT authentication, role-based authorization, and user-specific shopping carts and deployed on Azure App Services.

Tech used : [ASP.NET](#) Core, Angular, SQL Server.

Movie Ticket Booking

Microservices-based application for online movie ticket booking.

Tech used : Node Js, SQL Server.

Certifications

Microsoft Azure Fundamentals

AZ-900

2024

Foundational knowledge of cloud services and Microsoft Azure architecture.

Education

2016 - 2020

Velammal Engineering College

BTech - Information Technology

2015 - 2016

ST.Thomas Matriculation hr.sec.school

HSC

2013 - 2014

ST.Thomas Matriculation

hr.sec.school

SSLC

Skills

Backend

- Node.js, RESTful APIs, Microservices
- C#, ASP.NET Core, .NET Framework
- Entity Framework, LINQ

Frontend

- Angular, TypeScript, JavaScript
- HTML5, CSS3, Bootstrap
- Responsive Web Design

Databases

- Microsoft SQL Server
- MongoDB

Testing and Tools

- Postman,npm
- NUnit, Unit Testing
- Visual Studio, VS Code

Cloud

- Microsoft Azure, Azure App Services
- Git, Version Control

Languages

- English - Professional
- Tamil - Native
